

Dr. Christopher Tam

Dr. Christopher Tam

Professional & Research Experience

Christopher Tam (Ph.D., California Institute of Technology) is Robert O. Lawton Distinguished Professor at the Florida State University. Dr. Tam has conducted extensive research in aeroacoustics, fluid dynamics and computational aeroacoustics. For his very significant contributions, he received the AIAA Aeroacoustics Award and the Pendray Aerospace Literature Award. Dr. Tam is a fellow of AIAA, the American Physical Society and the Acoustical Society of America. Dr. Tam has been involved in aeroacoustics research for many years. Dr. Tam has made many original and significant contributions to this field. He is well recognized professionally. Below is a list of his professional society affiliations and awards.

Professional Society Affiliations

Fellow, the American Institute of Aeronautics and Astronautics
Fellow, the American Physical Society
Fellow, the Acoustical Society of America

Awards:

Lockheed Aircraft Company Disclosure of Invention Award, 1981
NASA Technology Utilization and Application Office Award, 1982
AIAA Space Shuttle Flag Plaque Award, 1984
AIAA Aeroacoustics Award, 1987
Florida State University Distinguished Research Professor Award, 1991
Arnold Engineering Development Center Annual Technology Achievement Award, 1993
Florida State University Professorial Excellence Award, 1997
NASA TGIR Award, 2001
AIAA Pendray Aerospace Literature Award, 2006
