

Parking arrangements for buses, trucks, trailers, and cars during the 2018 Buckeye Regional Robotics Competition on March 28-31, 2018

Buses, trucks, and trailers may park around the Wolstein center and in Lot 43 (24 hours a day - See location below) starting at 6 PM on Wednesday, March 29th. These spaces are first-come, first-served so get here early for best selection. See attached drawings (below) for the location of the parking lots.

These areas are designated for Buses, trucks, and trailers only. **CARS MAY BE TICKETED** if they park around Wolstein or in lot 43. Cars will need to find surface parking in the area, or they may park at their hotels (If parking is available there). Some businesses such as Walmart may allow day and/or overnight parking for cars and/or buses - it's a good idea to call the business ahead of time to verify availability if this is an option you're considering.

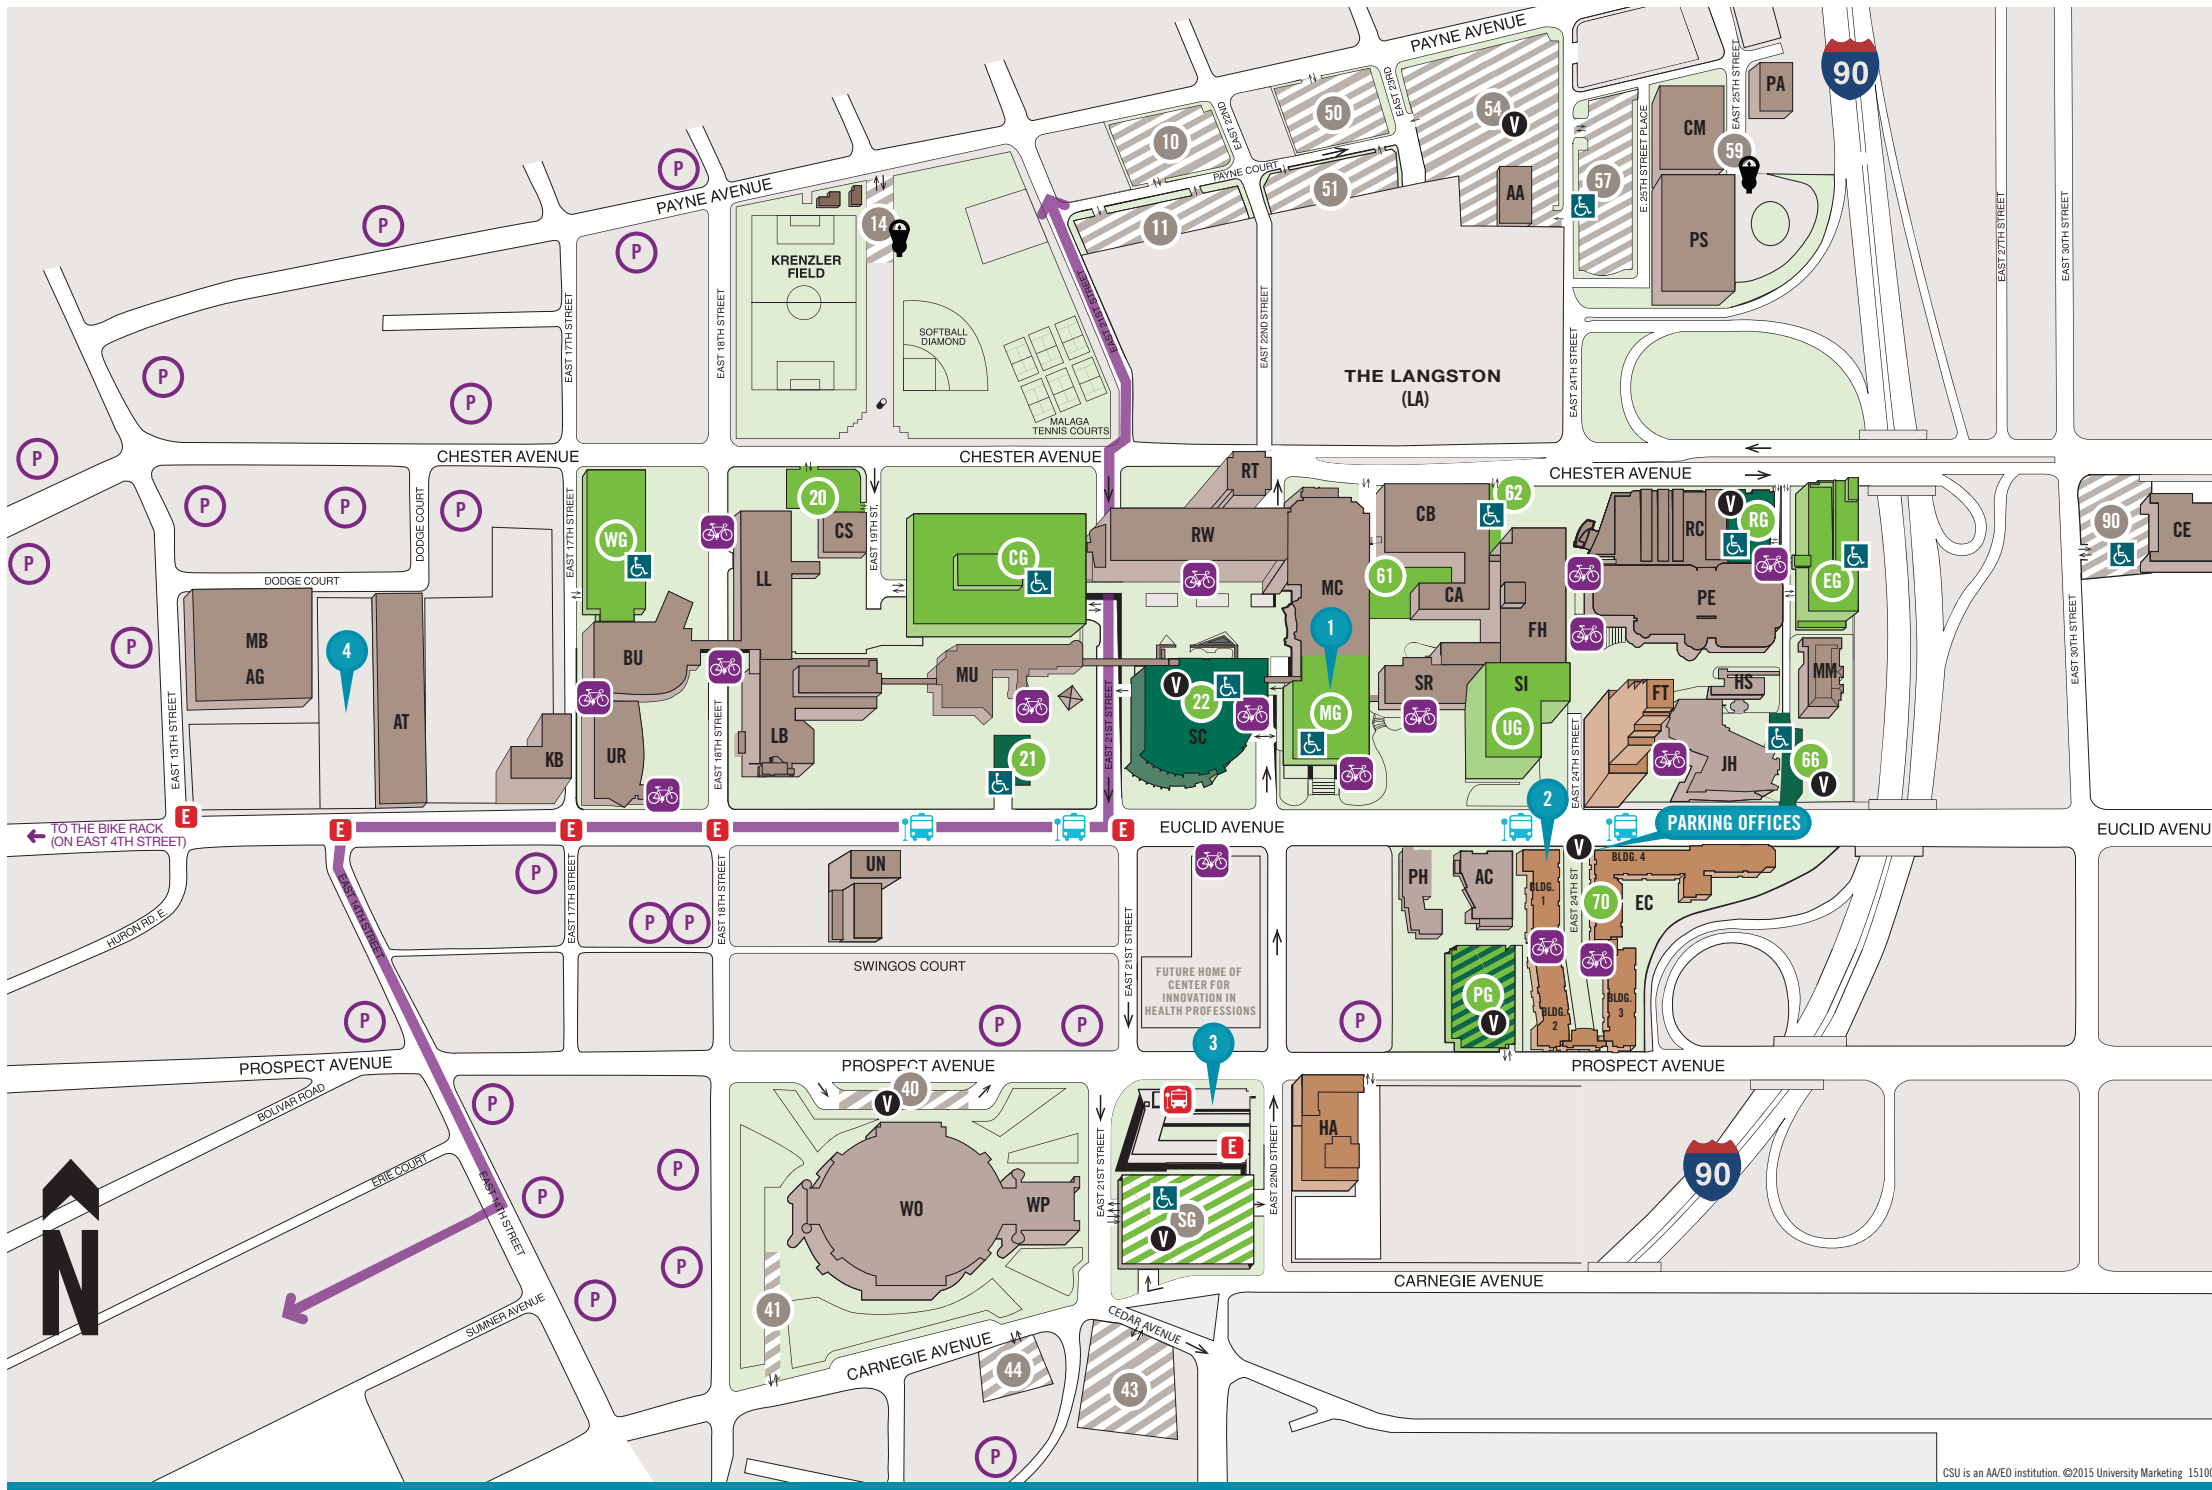

A map of the overall parking availability at the Cleveland State University is included on the 2<sup>nd</sup> and 3<sup>rd</sup> pages of this document. This map is useful for cars looking to find surface parking in the area.

Students are automatically charged the fee on their Student Account for a U-Pass, which is good for unlimited rides on RTA for an entire semester. U-Pass will be mailed direct to all eligible students prior to the start of each semester. **Don't forget that most RTA buses have bike racks!**
